Education

Hanoi University of Science and Technology, Control and Automation Engineering Hanoi, Vietnam
 • Description 1. 2024 – 2028
 • Description 2.

Experience

Institute for Advanced Study, Princeton University, Professor of Theoretical Physics Princeton University, NJ
 Teaching at Palmer Physical Laboratory (now 302 Frist Campus Center). While not a professor 1933 – 1955
 at Princeton, I associated with the physics professors and continued to give lectures on 22 years
 campus.
 • Relativity
 • Description 2.

California Institute of Technology, Visiting Professor Pasadena, California, US
 • Description 1. 1933 – 1933
 • Description 2. 1 year

Volunteer

People's Climate March, Lead Organizer Zurich, Switzerland
 Lead organizer for the New York City branch of the People's Climate March, the largest climate Apr 2014 – July 2015
 march in history.
 • Awarded 'Climate Hero' award by Greenpeace for my efforts organizing the march.
 • Men of the year 2014 by Time magazine

Awards

Nobel Prize in Physics Nov 1921
 The Nobel Prizes are five separate prizes that, according to Alfred Nobel's will of 1895, are
 awarded to 'those who, during the preceding year, have conferred the greatest benefit to
 humankind.'
 Royal Swedish Academy of Sciences
www.nobelprize.org/prizes/physics/1921/einstein/biographical

Max Planck Medal 2029
 Awarded for outstanding scientific achievement
 German Physical Society

Publications

Zur Elektrodynamik bewegter Körper
 It concerned an interpretation of the Michelson–Morley experiment and the properties of
 light and time. Special relativity incorporates the principle that the speed of light is the same
 for all inertial observers regardless of the state of motion of the source.
 Albert Einstein
en.wikisource.org/wiki/Translation:On_the_Electrodynamics_of_Moving_Bodies

Über einen die Erzeugung und Verwandlung des Lichtes betreffenden heuristischen Gesichtspunkt

In the second paper, he applied the quantum theory to light to explain the photoelectric effect. In particular, he used the idea of light quanta (photons) to explain experimental results, but stressed the importance of the experimental results. The importance of his work on the photoelectric effect earned him the Nobel Prize in Physics in 1921.

Albert Einstein

Die Grundlage der allgemeinen Relativitätstheorie

The publication of the theory of general relativity made him internationally famous. He was professor of physics at the universities of Zurich (1909–1911) and Prague (1911–1912), before he returned to ETH Zurich (1912–1914).

Projects

Quantum Computing

Jan 2018 – Jan 2018

Quantum computing is the use of quantum-mechanical phenomena such as superposition and entanglement to perform computation. Computers that perform quantum computations are known as quantum computers.

- Quantum Teleportation
- Quantum Cryptography
